Volume 20 The Use Of RWCS And RWS Wool Yarns In Men's Socks By P. C. M Shorthouse G. A. Robinson

The Use Of RWCS And RWS Wool Yarns In Men's Socks was published by South African Wool and Textile Research Institute of the CSIR in 1983. This book provides information on the use of RWCS and RWS wool yarns in men's socks, detailing the factors that determine the suitability of these yarns for different applications, including their use in socks designed for specific purposes such as hiking or climbing. The book also includes practical advice on how to select and use these yarns to achieve the best results.

The book's content is divided into several sections, each addressing a different aspect of the use of RWCS and RWS wool yarns in men's socks. The sections cover topics such as the selection of yarns, the characteristics of these yarns, and the practical application of these yarns in sock manufacturing.

In addition to providing theoretical information, the book includes practical case studies and examples of how RWCS and RWS yarns have been used successfully in real-world applications. This makes it a valuable resource for anyone working in the textile industry or anyone interested in learning more about the use of these yarns.

The book is an excellent resource for anyone looking to gain a deeper understanding of the use of RWCS and RWS wool yarns in men's socks. Its comprehensive coverage of the topic makes it suitable for both beginners and experts, providing a valuable resource for anyone looking to learn more about this aspect of the textile industry.
